

Dear FCC:

I DO NOT want the law overturned or weakened in any way. As a working mother, my time at home with my children is precious, valuable and private. I don't want it interrupted by people who wish to sell me things that I haven't asked for. We have a right to choose where and how we spend our money. If I need advise, I'll find a way to contact them!

Please, please do NOT weaken or overturn the law. I haven't received any phone solititations since the law was put into place and I haven't missed it one bit!

Thanks,
Loretta Radulic
